

Say hello to the Parakeet, a small, brightly colored bird that is sure to capture your heart! These little feathered friends are known for their vibrant colors, ranging from green, blue, to even yellow! They have a long, tapered tail and a small beak perfect for cracking open seeds. With their swift wings and chirpy voices, parakeets are truly a delight to watch and listen to.

Now that we've met these cheery creatures, let's take a sky-high journey to their homes. Parakeets are native to Australia but have made their homes in many parts of the world, including America and Europe. They love to nest in tree hollows and are often found in grasslands, woodlands, or even in busy cities! So, no matter where you are, keep your eyes peeled for a flash of color in the sky - it might just be a parakeet!

After a fun day of exploring, these little adventurers love to munch on their favorite foods. Parakeets have a varied diet that includes seeds, fruits, vegetables, and even insects! They have a knack for foraging and can often be seen hanging upside down on tree branches, searching for a tasty meal. Remember, the way to a parakeet's heart is through its belly!

Parakeets aren't just beautiful and fun-loving, they also have a special place in the hearts of humans. Many people keep them as pets because they are friendly, easy to care for and can even learn to mimic human speech! They live for about 10 to 15 years, growing from tiny hatchlings to mature birds, and throughout their lives, they bring joy to those around them. So, whether they're whizzing through the sky, munching on a snack, or chattering away in their cage, parakeets truly are a feathered treasure.

**Solve each problem.****Use the article to answer the question.**

- 1) What is the shape of a parakeet's tail?
 - A. Short and round.
 - B. Flat and long.
 - C. Long and tapered.
 - D. Curved and feathered.
- 2) Can parakeets mimic human speech?
 - A. Yes
 - B. No
 - C. Only young parakeets
 - D. Only adult parakeets
- 3) Where are parakeets native to?
 - A. Australia.
 - B. Africa.
 - C. Asia.
 - D. Europe.
- 4) How long do parakeets live for?
 - A. 16 to 20 years.
 - B. 10 to 15 years.
 - C. 20 to 25 years.
 - D. 5 to 8 years.
- 5) Why do people like to keep parakeets as pets?
 - A. Because they are friendly and easy to care for.
 - B. Because they are rare, expensive and hard to breed.
 - C. Because they can guard the house, fight with intruders and help in hunting.
 - D. Because they bring good luck, fortune and prosperity.
- 6) What kind of beak do parakeets have?
 - A. Large and hooked for tearing meat.
 - B. Small and perfect for cracking open seeds.
 - C. Sharp and strong for catching fish.
 - D. Long and pointed for drilling into trees.
- 7) Where do parakeets nest?
 - A. In water bodies.
 - B. In caves.
 - C. On ground.
 - D. In tree hollows.
- 8) What is included in a parakeet's diet?
 - A. Dairy, bread, and nuts.
 - B. Sugar, salt, and oil.
 - C. Meat, fish, and grains.
 - D. Seeds, fruits, vegetables, and insects.
- 9) What color can parakeets be?
 - A. Only yellow
 - B. Only green
 - C. Green, blue, or yellow
 - D. Only blue
- 10) How do parakeets forage for food?
 - A. By digging into the ground.
 - B. By diving into the water.
 - C. By hanging upside down on tree branches.
 - D. By flying high into the sky.

Determine if the statements is something the animal would say (W) or it it is not something the animal would say (N).

- 11) "I have a large beak, not suitable for cracking seeds."
- 12) "I love to nest in caves."
- 13) "You can recognize me by my long, tapered tail and my small beak."
- 14) "My colors are dull."
- 15) "I do not eat insects."
- 16) "I'm originally from Africa."
- 17) "Seeds, fruits, vegetables and even insects - we enjoy a varied diet."
- 18) "When I'm in search of food, you might find me upside down on tree branches, munching on a tasty meal."
- 19) "My friends and I are often seen in different colors, including green, blue and yellow!"
- 20) "I prefer to live alone and avoid social interactions."
- 21) "I'm from harsh cold arctic regions."
- 22) "I can live for 50 years."
- 23) "Originally, we come from Australia, but now, you can find us in many parts of the world, even in America and Europe!"
- 24) "I don't like eating fruits."
- 25) "Did you know I can mimic human speech? It's one of the many talents I possess."
- 26) "When I'm not flying, you can often find me nesting in tree hollows."
- 27) "We have been kept as pets by many humans because we are friendly, easy to care for and can mimic human speech."
- 28) "I don't like to eat seeds."
- 29) "My beak is the perfect shape to crack open seeds."
- 30) "I can live for up to 15 years."

Determine if the statement is a fact or opinion based on the information in the article.

- 31) Parakeets eat a variety of foods, which consists of seeds, fruits, vegetables, and occasionally insects.
- 32) The colors of parakeets are more exciting than those of any other bird.
- 33) Parakeets originally come from Australia but they are also found in America and Europe.
- 34) It is really impressive how parakeets can eat so many different kinds of food.
- 35) Parakeets come in a variety of colors such as green, blue, and yellow.
- 36) The fact that parakeets can mimic human speech is the coolest thing ever!
- 37) Parakeets have the ability to mimic human speech.
- 38) Parakeets are excellent at cracking open seeds due to their small beak.
- 39) Parakeets have the most beautiful and vibrant colors among birds.
- 40) Caring for parakeets is an easy task for people of all ages.

Determine if the statement is true or false.

- 41) Parakeets can hang upside down on branches to find food.
- 42) Parakeets are not able to eat insects.
- 43) Parakeets beaks are perfect for cracking open seeds.
- 44) Parakeets do not like fruits.
- 45) Parakeets mainly eat seeds.
- 46) Parakeets live for more than 20 years.
- 47) Parakeets are large, dull colored birds.
- 48) Parakeets do not have tail feathers.
- 49) Parakeets can mimic human speech.
