

Guess what, storks are not just found in fairy tales delivering babies, they're real birds! These tall, long-legged birds have a sharp, pointy beak and beautiful white feathers with black wingtips. Some storks can stand up to 5 feet tall - that's taller than some of your buddies! And if you think that's impressive, their wingspan can stretch up to 10.5 feet, almost as long as a compact car!

Now, if you're wondering where these amazing birds live, storks love the wetlands, grasslands, and even the savannas. They build their nests high up in trees or on buildings, safe from ground predators. Storks are found all around the world, from Asia, Europe, Africa to South America. So, no matter where you live, there's a chance you might spot a stork in the wild!

Just like us humans, storks have a favourite food too. They love eating small animals such as frogs, fish, insects, and sometimes even small reptiles! They use their long, pointy beaks like a pair of tweezers to catch their prey. But don't worry, storks are friendly towards humans and other animals unless they feel threatened.

Speaking of feeling threatened, storks have some pretty cool defenses. When they sense danger, they can fly high into the sky, well out of reach of most predators. Sometimes, they might use their strong beaks and powerful wings to defend themselves. So, storks are not just beautiful birds, they're tough and smart too, making them a truly fascinating species to learn more about.

Solve each problem.

Use the article to answer the question.

- 1) Which of the following would a stork most likely eat?
A. Fish
B. Small rodents
C. Tree Bark
D. Seeds and nuts
- 2) Where might a stork build its nest?
A. On the ground
B. Inside caves
C. Underground
D. In trees
- 3) What's the height of a tall stork?
A. Up to 1 foot
B. Up to 5 feet
C. Up to 3 feet
D. Up to 15 feet
- 4) How do storks catch prey?
A. They use their beaks like tweezers to grab them.
B. They dive into the water and grab their prey with their sharp talons.
C. They use their wings to pull their prey from the water.
D. They scoop up water and small animals in their beak and swallow them whole.
- 5) What do storks do when they sense danger?
A. Fly high into the sky
B. They spit a black smelly ooze
C. They play dead
D. They release a toxin through their skin
- 6) How long can the wingspan of a stork be?
A. Up to 5 feet
B. About 3 feet
C. Over 15 feet
D. Over 10 feet
- 7) What color are the feathers of storks?
A. White with black wingtips
B. Black with purple wingtips
C. Orange with blue wingtips
D. Brown with grey wingtips

Determine if the statements is something the animal would say (W) or it it is not something the animal would say (N).

- 8) "You'll rarely see us storks in trees."
- 9) "I can be up to a meter and a half tall!"
- 10) "Did you know that I can be found in South America, Asia, Europe, Africa? Yes, I am a global bird!"
- 11) "My wingspan can be over 3 meters long."
- 12) "My beautiful white feathers with black wingtips are quite a sight, aren't they?"
- 13) "Our wings aren't that big, hardly the length of a skateboard."
- 14) "Insects and small animals? No, we prefer to eat seeds."

- 15) "Worried about predators? Not me. If things get too dangerous on the ground, I just take to the sky."
- 16) "We storks are quite aggressive towards humans and other animals."
- 17) "We storks are the smallest land bird in North America."
- 18) "I am tall, long-legged, and have a sharp, pointy beak!"
- 19) "We storks don't like nesting high above ground."
- 20) "I love building my home high in trees or on buildings, it keeps me safe from predators on the ground."
- 21) "To catch my food, I use my long, pointy beak just like a pair of tweezers."
- 22) "You will only find us storks in Asia."
- 23) "Hey, I am a friendly bird! I won't harm you or other animals unless I feel threatened."
- 24) "Ah, my favourite food? Well, my menu consists of frogs, fish, insects, and sometimes, when I'm feeling adventurous, small reptiles."
- 25) "My diet mainly include fruits."
- 26) "We storks prefer dry, desert areas."

Determine if the statement is a fact or opinion based on the information in the article.

- 27) Storks can be found in various parts of the world including Asia, Europe, Africa, and South America.
- 28) Storks are the most amazing birds to see in the wild.
- 29) Storks make their nests high in trees or on buildings.
- 30) Storks have the most stylish feathers with their white and black coloration.
- 31) Storks can be as tall as 5 feet.
- 32) The way storks are able to catch their food with their long, pointy beaks like tweezers is interesting.
- 33) Storks have a diet that includes small animals like frogs, fish, insects, and small reptiles.
- 34) Storks can be found in wetlands, grasslands, and savannas.
- 35) Storks have the most interesting habitats that include wetlands, grasslands, and savannas.
- 36) Storks have the most beautiful feathers.

Determine if the statement is true or false.

- 37) Storks can stand over a meter and a half tall.
- 38) Storks use their beaks to break open their main source of food, seeds.
- 39) Storks are found in various places around the world. From South America to Asia.
- 40) Storks use the long claws on their feet to catch their prey.
- 41) Storks prefer eating small animals.
- 42) Storks have no defenses.
- 43) Storks are found only in North America.
- 44) All storks have white feathers.
- 45) Storks use the beaks like tweezers to catch their prey.

46) The wingspan of a stork can reach over 3 meters.

Determine if the sentence is a declarative(d), exclamatory(e), interrogative(i) or imperative(m).

47) Storks have been associated with bringing babies to families in folklore.

48) Do storks have long legs?

49) Storks mate return to the same nesting site every year.

50) Storks can fly long distances in search of food and suitable nesting sites.

51) Do storks live in groups?

52) What do storks eat?

1. _____

26. _____

51. _____

2. _____

27. _____

52. _____
