

Use multiplication rules to determine the missing remainder for each problem.

Answers

1) $5,952 \div 2 = 2,976 \text{ r } \underline{\hspace{2cm}}$

2) $3,845 \div 2 = 1,922 \text{ r } \underline{\hspace{2cm}}$

1. _____

3) $24 \div 5 = 4 \text{ r } \underline{\hspace{2cm}}$

4) $124 \div 10 = 12 \text{ r } \underline{\hspace{2cm}}$

2. _____

5) $284 \div 2 = 142 \text{ r } \underline{\hspace{2cm}}$

6) $9,569 \div 10 = 956 \text{ r } \underline{\hspace{2cm}}$

3. _____

4. _____

7) $3,365 \div 10 = 336 \text{ r } \underline{\hspace{2cm}}$

8) $101 \div 5 = 20 \text{ r } \underline{\hspace{2cm}}$

5. _____

6. _____

9) $356 \div 2 = 178 \text{ r } \underline{\hspace{2cm}}$

10) $377 \div 5 = 75 \text{ r } \underline{\hspace{2cm}}$

7. _____

8. _____

11) $89 \div 10 = 8 \text{ r } \underline{\hspace{2cm}}$

12) $697 \div 10 = 69 \text{ r } \underline{\hspace{2cm}}$

9. _____

10. _____

13) $92 \div 10 = 9 \text{ r } \underline{\hspace{2cm}}$

14) $5,392 \div 5 = 1,078 \text{ r } \underline{\hspace{2cm}}$

11. _____

12. _____

15) $1,052 \div 2 = 526 \text{ r } \underline{\hspace{2cm}}$

16) $6,947 \div 5 = 1,389 \text{ r } \underline{\hspace{2cm}}$

13. _____

14. _____

17) $9,485 \div 2 = 4,742 \text{ r } \underline{\hspace{2cm}}$

18) $2,278 \div 10 = 227 \text{ r } \underline{\hspace{2cm}}$

15. _____

16. _____

19) $200 \div 5 = 40 \text{ r } \underline{\hspace{2cm}}$

20) $30 \div 2 = 15 \text{ r } \underline{\hspace{2cm}}$

17. _____

18. _____

19. _____

20. _____

Use multiplication rules to determine the missing remainder for each problem.
